Allowable Subject Matter

Applicant's amendment of 5-24-06 has placed this application in condition for allowance by amending the claims as followed:

- Deleting "prodrug";
- Deleting the limitation of "R³ and R⁴....may combine to form a six-member aryl or heteroaryl ring;"
- Listing specific groups for Z;
- Cancelling claims 7-17 and 19-37.

Thus, previous 112 rejections are now withdrawn.

The terminal disclaimer has also overcome the previous rejection of Obviousness-type Double Patenting.

With no other outstanding rejection, pending claims 1-6 and 18 allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention is directed to compounds of substituted (2-oxo-pyrrolo)pyridazine, and pharmaceutical composition thereof. The closest reference, **Tang et. al.** (US 6,465,507), while generically teaches the core of (2-oxo-pyrrolo)pyridazine, it fails to teach or fairly suggest a 5-membered heteroaryl ring represented by Q. Therefore, it does not anticipate or render obvious the instant invention.

Art Unit: 1624

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

References cited on PTO-892

The other cited references show state of the art. While they teach the *pyrrolopyridazine* ring, they fail to teach or fairly suggest a substituent corresponding to Q and/or R¹-R⁶.
